April 25<sup>TH</sup> 2012

Dear Sirs

Having performed microbiocidal activity tests according to standar JIS Z 2801, period of analysis from 2011-03-10 to 2011-03-29, in our laboratories on products manufactured by the firm PINTURAS BLATEM S.L.

**ACRIBLATEM,  
BIOTEM EXTERIOR  
BIOTEM NTERIOR**

### CERTIFY

the products tested, show an excellent bactericidal and fungicidal activity in a very short time (less than 48 hours) causing significant reductions in the populations of tested microorganisms: *Aspergillus Niger*, *Salmonella typhimurium*, *Staphylococcus aureus* and *Legionella pneumophila*.

Thus, bactericidal and fungicidal efficacy of the products **ACRIBLATEM, BIOTEM EXTERIOR** and **BIOTEM NTERIOR**, have been demonstrated.

Yours sincerely

**CONTROL MICROBIOLÓGICO, S.L.**
